

## The Results

### Increased Ticketing Volumes

Over a three year period, Mystify has provided its EMEA TMC customers over 18,128 ticketing opportunities, doubling their ticket volumes year over year. Projected ticketing numbers for 2018 has been set with numbers moving upwards of 10,896.

### Access to Best Global Fares

TMCs that signed up for Mystify's consolidation platform were able to book fares from anywhere across the globe, at rates similar to those available in the local market. This proved to be a vital asset which decreased the investment of time and resources.

### Increased Revenue

While the increased ticket volumes would denote an increase in revenue, TMCs in the region were also able to save on unnecessary bank charges, transaction fees, and International travel bookings through an accurate Rate Of Exchange (ROE).

## The End Result

Mystify's singular platform that serves as a global marketplace for airfares negates the need of additional investments.

Mystify's partnership with global airlines and increased negotiating powers resulted in better savings for our customers.
